SUMMARY

Full stack web developer and chef experienced in making and shipping code and sandwiches in an agile environment. After nearly a decade in food service, transitioning into tech after completing the UNC Chapel Hill Coding Bootcamp with hands-on experience in both individual and team projects using JavaScript, CSS, React.js, Node.js and responsive web design. Able to nimbly shift priorities as environments change while maintaining a consistently high-quality product in a team environment.

TECHNICAL SKILLS

HTML | CSS | Bootstrap | Bulma | Handlebars | JavaScript | jQuery | Git | Node.js | Express.js | MySQL | Sequelize | Heroku | React | React Native | GraphQL | MongoDB | Mongoose | Python | Flask | SQLAlchemy | AWS |

PROJECTS

Carbon Footsteps |https://github.com/nmsiegel1/carbon-footprint | https://carbon-footsteps.herokuapp.com/

- A MERN stack application for an environmentally conscious user who wants to calculate their carbon footprint and learn more about how to offset their emissions in order to positively impact the world's climate. Made in a team of five.
- React, MongoDB, GraphQL, Express.js, Node.js, Chart.JS, MUI
- Responsible for the home page, Pledge component, My Pledges page, authentications, server and connections and concept.

Sip Happens | https://github.com/nmsiegel1/Sip-Happens | https://sip-happens-unc.herokuapp.com/

- Wine and food pairing application that presents a user with featured seasonal wine and food pairings, search for pairings by type of wine, and add comments or votes to each pairing.
- HTML, CSS, Handlebars, JavaScript, Sequelize, Express.js, Express Sessions
- Lead developer in a team of four primarily responsible for the back-end

---

PROFESSIONAL EXPERIENCE

Assistant General Manager   April 2017-September 2021

Cutty's   Brookline, MA

- Managed the point-of-sale platform, Toast, including maintaining the online ordering site and communication with technical support.

- Wrote all employee training materials, trained staff of 10 employees on proper procedures and maintained standards and quality.
- Worked every station in the restaurant both customer facing and back of the house in a very fast paced environment serving 1-200 tickets daily.

Assistant Bakery Manager   March 2016-March 2017

Great Harvest Bread Co   Boulder, Colorado

- Effectively managed commercial baking operations, leading 4 bakers through production of at least 1,000 loaves of bread and pastries 5 days a week.
- Executed ordering of restaurant supplies, created daily production sheet, oversaw production maintaining quality and while staying on schedule.

Cook   September 2014-January 2016

Cutty's   Brookline, MA

- Worked as a team with other restaurant professionals to ensure satisfied customers rotating between register, expo, sandwich and prep stations in a very fast paced restaurant.
